

For the personal attention of Herr Adolphus Kustos

The Nine Stars Coaching Inn

The Middenheim Road

Aldorf

My Dear Herr Kustos,

You may recall a certain conversation we had last Brauzzeit in the public bar of the Hook and Hatchet in Nalun. At that time you mentioned your interest in the activities of a certain society whose name I shall not mention here. In particular, you were very anxious to trace the whereabouts of a certain officer, known only as the Magister Impedimentae.

I am now able to confirm each and every one of your suspicions. After your departure I made some discreet enquiries and managed to ascertain that the person you seek uses the name Kistor Lieberung. In accordance with your plan, Herr Lieberung will be travelling towards Aldorf along the Middenheim road at some time towards the end of the month of Jahdrung.

I have also had the good fortune to secure a likeness of Herr Lieberung, which I enclose with this letter.

I remain, sir, your most obedient servant.
